

Patrick Hopkins

Lesson Plan 1

UNIT TITLE: 2-Point Perspective

UNIT GOALS:

- 1. Art skills/technique:** Students will learn to create 2-point linear perspective names.
 - 2. Art medium/concepts/artists:** Students will learn to use rulers, pencil, and colored pencil for their designs.
 - 3. Student choice/engagement:** Students will learn to create their own designs based off their names with two-point perspective.
-

LESSON TITLE: 2 Point Box

GRADE LEVEL: 7th Grade

LENGTH OF LESSON: 40 minutes

LESSON OBJECTIVES:

- Students will learn to create overlapping boxes in 2 Point Linear perspective.

INSTRUCTIONAL STRATEGIES & LEARNING TASKS

Learning Segments and Pacing:

Time	Description of activity
-5 Minutes	-Greet Students
-30 Min	- Students Observe a demonstration on how to create boxes in 2-point linear perspective step by step. - Horizon Line

	<ul style="list-style-type: none">-Viewpoint Line-Converging Lines- Back edge Lines <p>Starting with one box in the center on their horizon line before adding further boxes behind.</p>
--	--

INSTRUCTIONAL MATERIALS & RESOURCES:

- Sketchbooks
- Pencils
- Rulers
- Erasers
- Smartboard

Differentiated Instruction:

- **Kinesthetic Learners:** Students may draw long with the teacher during the demonstration.
- **Visual Learners:** Teacher will produce and provide a project example of what's expected from the students.

LESSON ASSESSMENT:

Formative Assessment: Teacher monitors classwork during instruction.

Summative Assessment: Students should have completed at least 2 Boxes in 2-point Linear Perspective.
